Re: Patent Application # 10/633,460, Amendment to particularize scope of the invention and claims

Dear Ms. Perreira,

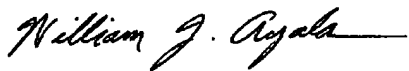

In response to your Office Action communication of 6/2/2006, I am, as inventor of record, herewith amending the referenced application by electing the pharmaceutical formulation sleep regulating system designated "(group) I" in your correspondence, as the invention to be examined.

This election ascribes the subject application to claims 1 through 23.

We intend to render a continuation application for the remaining claims.

Thank you in advance for your henceforth circumspect and fair examination of the existing and subsequent patent applications.

Sincerely,

William J. Ayala
